

Don't leave your network security up to chance...

Let us ensure you are managing and protecting your infrastructure, information and interactions against the growing array of increasingly sophisticated threats. Improvements in information sharing and access are creating more efficient businesses, but also increasing the threats and risks they face.

As a Symantec Silver Partner, RDA Group can recommend and apply leading security solutions to ensure you are managing and protecting your organisation.

We will work with you to pro-actively secure your information, before your luck runs out.

Request a **FREE Security Audit** today if you need:

IT Compliance & Policy Management

- Assess Risk
- Create and manage policies
- Monitor compliance
- Demonstrate due care

Managed Infrastructure

- Secure endpoints
- Keep servers up & running
- Control network access
- Stop internal & external threats

Information Risk Management

- Mitigate spam and malware
- Prevent data loss
- Manage, retain, protect information
- Discover information when needed

Visit www.therdagroup.com.au/solutions/security or call **1300 554 535** before 31 July 2009 to book your free Security Audit.

RDA Group is uniquely positioned to help you deal with threats to your information - not just the systems that house it.
